Sir,

COMMUNITY PROJECTS - South Kanara - Rural Arts, Crafts and Industries - Coir Workers' Cooperative Production and sale Society, Ullal - Services of a Coir Demonstrator - Proposals - Submitted.

....

Ref: Letter No.1778-S4/49 dated 25-11-52 from the Director of Industries and Commerce, Madras 6.

.....

There is a Coir Workers' Cooperative Production and Sales Society at Ullal which is within the Project area. At the inception of the Society, the Government accorded sanction to the deputation of an instructor of the Industries Department for a period of six months for giving training to the members in the manufacture of Coir Goods. As the Society was not able to meet the salary of the instructor, her services were subsequently withdrawn. Enquiry shows that the services of the instructor were available to the Society only for about two months as the Society was started late and the instructor was on leave for some time during the period of sanction.

2. Ullal Village lies on the Sea coast. As such, there is abundance of raw material for the improvement of coir undustry in this area. The members of the Society are(~~the manufacture of improve~~) anxious to receive training in the manufacture of improved varieties of coir goods for which there is good demand in the local markets. If arrangements can be made to impart training to the members of the Society in the manufacture of improved varieties of Coir goods, provision can also be made for the supply of labour saving tools and other modern equipments to the Society from the Community Project funds. As the financial position of the Society is not quite satisfactory, it may not be in a position to meet the salary of the instructor. It is, therefore necessary that the Society is not made to incur expenditure on the salary etc. of the instructor, and that the services of the instructor are made available to the Society at least for a period of one year. If this is done, the membership of the Society will increase, there will be improvement in the variety and nature of the goods produced and it will be possible to sell the goods in the market at competitive rates. The Director of Industries and Commerce, Madras was therefore addressed in this office Ref.C.No.133/52 dated 31-10-52, to depute a trained instructor from his department to give instructions to the members of the society. In his letter No.1778-S4/49 dated 25-11-52, he has replied that in the interests of the Coir industry in the Community Project area, the Government may

of a trained demonstrator to the Society. I therefore recommend that the services of a trained demonstrator, may be made available to the Society free of cost for a period of one year.

Sir,

Sub: Community Projects - South Kanara - Rural Arts Crafts and Industries - Coir Workers' Co-operative Production and Sale Society - Ullal Services of a Coir Demonstrator - Proposals - Submitted.

Ref: Govt.Memo.No. 3422 Pun.(C.P.II)/53-1 dated 7-4-1953.

******

The trained demonstrator was appointed for a period of six months in 1951. For paying her salary, the Government had sanctioned a subsidy of Rs. 402/- In addition to it, the following subsidies had also been sanctioned by Government to give a fillip to the industry.

Recurring.

Pay of Instructress.	....	Rs. 45 + 22 P.M. for 6 months.
Pay of Clerk.	....	Rs. 30 + 19 P.M. for 6 months.
Contingencies.	....	Rs. 100/-

Stipend at Rs. 15/- per month for 4 trainees for two months.

Non-Recurring.

Two sheds at Rs. 1,250/- each.	Rs. 2,500/-
8 sets of Charkas at Rs.25/- each.	Rs. 200/-
Pillowing machine.	Rs. 250/-
Sundry tools and implements.	Rs. 100/-
Coir fibre for training.	Rs. 1,000/-
	Rs. 4,050/-

67 12 4

3. The present proposals are for the services of a trained demonstrator only. As the Society has got the machinery and other sundry tools and implements, there is no need to grant any subsidy for this purpose. It is considered sufficient, if the services of the trained demonstrator are made available to the Society for a period of one year. Taking the salary of the demonstrator at Rs. 45/- and D.A. at Rs. 22/- per month, the total emoluments payable to her for a period of one year, come to Rs. 804/- The Society is not in a position to bear this expenditure from its own resources. I, therefore recommend that the services of a trained demonstrator may be made available to the Society for a period of one year and it may also be granted a subsidy of Rs. 804/- to enable it to meet the salary of the demonstrator for that period.

4. I request that early orders may be passed on the above proposal.

PROJECT EXECUTIVE OFFICER. 25/4

Sub: COMMUNITY PROJECTS - South Kanara - Rural Arts, Crafts and Industries - Coir Workers' Cooperative Production and Sales Society, Ullal - Grant of subsidy - Request - Report - Submitted.

Ref: Application dated 16-2-1953 from the President, Ullal Coir Workers' Cooperative Production and Sales Society Ltd., Ullal.

.....

There is a Coir Workers' Cooperative Production and Sales Society Ltd., at Ullal which lies within the Project area. The Society had applied for the services of a trained Demonstrator free of cost, to give training to its members in Coir making. Proposals were submitted in this office L.Dis.366/52 dated 19-2-1953, recommending the services of a trained Demonstrator free of cost for a period of one year. The proposal was recommended by the Registrare of Cooperative Societies, Madras. In Government Memorandum No.3422 Pub.(C.P.II)/53-1 Dated 7-4-1953, the Government called for further particulars regarding the financial implications involved, and a report was submitted furnishing the details, in this office L.Dis.1097/53 dated 25-4-1953. The matter is under examination by the Government.

2. In addition to the above, the Society has applied for the grant of subsidies for the following:

1.	Towards cost of building.	----	Rs. 2,300/-
2.	Purchase of Machinery.	....	Rs. 1,000/-
3.	Pay of Clerk.	....	Rs. 500/-

The application was sent to the Dy. Registrar of Cooperative Societies, Mangalore for remarks. He has examined the request of the Society and sent his recommendations. A copy of his report which deals with the matter in detail is enclosed for favour of information of the Government. The Deputy Registrar recommends the following:

1. Subsidy of Rs. 2,300/- towards the construction cost of the Society building.

2. Subsidy of Rs. 500/- being 50% of the cost of two rope making machines costing Rs. 150/- each and two looms costing Rs. 350/- each.

3. Subsidy of Rs. 500/- towards pay of a clerk for one year.

With regard to the request of the Society for a loan of Rs. 3,000/- for the purchase of necessary raw materials etc. the Dy. Registrar states that no loan need be granted by the Community Project as the Society can obtain it from the S.C.C.C.Bank Ltd., if there is need for it.

3. As the Society is working in the Project area, proposals were submitted for making available to the Society the services of a trained demonstrator for a period of one year and for the grant of a subsidy of Rs. 804/- to enable it to meet the salary of the Demonstrator for one year. It is not known whether the rules

p.t.o.

permit the grant of subsidies by the Community Project. If there is provision, the subsidy recommended by the Dy. Registrar of Cooperative Societies, Mangalore, may be sanctioned. If there is no provision, the matter may kindly be referred to the concerned Department of Government recommending grant, to be dealt with along with the proposal already submitted for the services of a trained demonstrator.

PROJECT EXECUTIVE OFFICER.

Copy of Rc.2495/53-C dated 12-5-1953 from the Dy. Registrar, Mangalore to the Project Executive Officer, Mangalore.

Sub: Cottage Industrial Societies - The Ullal Coir Workers' Cooperative Production and Sale Society ltd., - Subsidy and loan - Regarding.

Ref: Your N.Ref.C.No.593/53-B dated 24-2-53.

•

The Ullal Coir Workers' Cooperative Production and Sale Society Ltd., the only society of this type in South Kanara Dt. was registered on 27-1-51 and started on work formally on 12-2-51.

2 The Society had a membership of 123, with a paid-up share capital of Rs. 1,535 as on 30-4-53. With the assistance of the Lady Demonstrator of the Industries Dept., the Society arranged for imparting training to 48 members in the preparation of Coir yarn through charakas, preparation of brushmats and chain mats for a period of two months. The service of the Instructor were available to the society for about 2½ months. So far, the Society has trained 48 workers. No training classes are conducted by the Society now. There are chances of giving training to more workers in the preparation of coir yarn, brushmats, chain mats etc. if the services of an Instructor of the Industries Dept., are sanctioned in the society free of cost for a period of one year. The value of goods produced during the period 1-7-52 to 30-4-53 is Rs. 1,746-3-0. The Societ has realised a sum of Rs. 1,232-15-6 by way of sale proceeds of coir yarn. The society has also paid a sum of Rs. 348-5-0 as wages to its members during the period 1-7-52 to 30-4-1953.

3 The future working of this Society is entirely dependent on the marketing condition of coir articles. At present, the coir industry is confronted with certain difficulties. In view of the comparatively high cost of fibre and unfavourable market conditions for coir yarn and other products, the Society is finding it difficult to make prompt payment of wages to workers. The market conditions for coir goods also vary from time to time with the result that there is no sufficiant margin of profit to the society to pay reasonable wages to its members. After the completi of training classes to 48 workers for a period of 2 months, the Society engaged about 30 workers in the preparation of coir yarn, brushmats and chain mats. The Directors of the Society feel that the Society should also undertake the preparation of ropes, nets and other articles which may find a ready sale and fetch a decent price for the goods. The finance of the Society do not permit the purchase of equipments required for the purpose. In the circumstances, the society has sought for the Government help by way of subsidies and a loan from the Community Project funds. As the Society is in the initial stages of its working, the Society can work successfully if Government help by way of subsidy to meet the working expenses, is forthcoming.

4 The Society has constructed a building at a cost of Rs. 4800/- towards the expenses of which the Society has been granted a subsidy of Rs.2,500/- The Society has now utilised its share capital in the construct of the building to the extent of Rs. 1,535. The Society has represented that a subsidy of Rs.2,300 may be granted from out of the Community Projec Funds, if any, for the purpose. If the request of the Society for a subsidy of Rs. 2,300 is favourably considered, it would go a long way to find finances for the society to run the day-to-day work connected with the coir industry. The Society has also applied for a subsidy of Rs.1,000 towards the cost of implements and tools. The Society is not equipped wit a rope-making machine and looms to enable it to undertake manufacture of ropes and nets, for which there is good demand in the market. The cost of a rope making machine is about Rs. 150 and the cost of a loom is about Rs. 350, if prepared locally. The Society is in need of 2 rope making machines and 2 looms at least, to begin with. Hence, it has applied for subsidy of Rs. 1,000 towards the cost of the above equipments. I feel tha they are quite essential and a subsidy of Rs.500 (50% of the cost of the machineries) is absolutely necessary to enable it to own the machineries, if it is not possible to sanction a subsidy of Rs.1,000 to the society for the purpose.

5 In view of the fact that proposals for the sanction of a trained instructor of the Industries Department free of cost, for a period of one year are pending with the Government, the Society may not require any subsidy to meet the pay of an Instructor. The services of a Clerk to maintain the day-to-day transactions of the society are quite essential and as there is no sufficient income to the society at present to meet th cost of a clerk, the society has applied for a lump sum subsidy of Rs. 500

towards the pay of a clerk for a period of one year. The r
of the society may favourably be considered.

Further, the society has applied for a loan of Rs.3,
to enable the society to purchase necessary raw materials a
make timely payment of wages and to arrange for the sale of
products at a favourable price and more advantageous term
I do not recommend the loan, as the society can apply for a
from the S.C.C.C.Bank Ltd,, if there is need for it.

N.Ref.C.No.593/53-B dated 24-2-53 is herewith retransmitted.

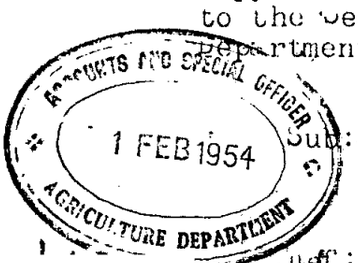
Coir Workers' Co-operative
Production and Sales Society.

Copy of Registrar's letter R.C.105522/53 V.2, dated 2-10-19
to the Secretary to Government, Public (Community Projects)
Department, Fort St. George, MADRAS.

--:--



Sub:- Community Projects - South Kanara Project area - Ullal Coir Workers Cooperative Production and Sale Society - Subsidy - Sanction of.

Ref:- Government Memorandum No.3422, Public (C.P.II)/53-2, dated 13-6-1953.

--x--

1. In the memorandum cited, Government communicated me a copy of letter L.Dis.593/53 dated 26-5-1953 of the Pro Executive Officer, Mangalore and called for my remarks on i In the letter, the Project Executive Officer, Mangalore has recommended sanction of the following subsidies:-

(1) Subsidy to meet the cost of a trained coir demonst tor for a period of one year to the society free cost.

(2) a subsidy of Rs.2,300/- to meet the cost of buildi

(3) a subsidy of Rs.1,000/- to enable the society to p chase machinery;and

(4) a subsidy of Rs.500/- to meet the pay of the clerk

I offer below my remarks on the above proposals.

Sanction of subsidy to meet cost of demonstrator: Project Executive Officer, recommended the proposal in his letter No.L.Dis.366/52 dated 19-2-53 addressed to Governmen through me. I support it in my endorsement R.C.No.35151/53 dated 7-3-1953 to the Director of Community Projects.

(ii) Subsidy towards cost of building: In their or Rs.No.1505, Development dated 14-4-50, Government sanctione subsidy of Rs.2,500/- to the society to meet the cost of tw sheds at Rs.1,250/- each. The society estimated the cost o construction at Rs.3,000/-. When the construction was take up and completed, the cost exceeded the estimate of Rs.3,00 The society had to spend Rs.4,802-11-0 for the construction the building. It had therefore to utilise Rs.2,302-11-0 (R Rs.4,802-11-0 - Rs.2,500-0-0) from out of its general funds the financial position of the society is weak, the expendit Rs.2,302-11-0 from out of the general funds on the construc of the building affected the business of the society. The Deputy Registrar, Mangalore considers that if the society c recoup this amount by way of subsidy from Government it wil able to run its day-to-day administration. I agree with hi and recommend the sanction of a subsidy of Rs.2,300/- to th society to meet the cost of the building. The Balance Shee the Society as on 15-7-53 is enclosed.

(iii) Subsidy to purchase machinery: The Deputy Re reports that there has been slump in the coir market. The produced by the society viz. coir-yarn, brush-mats, chain-m etc., do not command ready sales in the market. The societ not able to pay reasonable wages to the members in view of comparatively high cost of coir fibre and low-market for co goods. It is actually incurring loss in the business. The of one candy of fibre (raw materials) is Rs.105/-. Allowin margin of 10% for wastage, the cost of production of one ca of coir yarn will be about Rs.145/- including wages for the paration of coir yarn. The market value is about Rs.120/- candy. The society will therefore incur a net loss of abou Rs.25/- per candy. To avoid further loss, it proposes to c coir yarn into coir ropes and nets for which there is local

of coir rope or coir net as against the cost of production of Rs.165/- (cost of 1 candy of coir yarn Rs.145/- plus wages of Rs.20/-. To undertake the production of ropes, it requires ~~machine~~ machinery and looms. Its financial position does not permit it to purchase the required machinery. I therefore request that Government may be pleased to sanction a subsidy of Rs.1,000/- to the society to enable it to purchase the machinery referred to above.

(iv) Subsidy to meet the pay of clerk: The Deputy Registrar has reported that the services of a clerk are required for maintaining the accounts of the society. The society is not in a position to meet the cost of a clerk. The Deputy Registrar has recommended the sanction of a subsidy of Rs.500/- to the society to enable it to maintain a clerk. I support his recommendation.

V. Govindan Na 30.1.54

for Registrar.

Agriculture (D.II) Deptt.

Letter No 3422 D.II/58-3 d/ 13.5.

To

The Secretary,
Community Projects Administration,
Rashtrapati Bhavan,
New Delhi.

Sir,

Sub: Community Projects - South Kanara Project - Proposals under Rural Arts and Crafts and Industries.

The Ullal Coir workers' Co-operative Production and Sale Society ~~has~~ recommended has applied for financial assistance from the C.P. funds to an extent of Rs.4,604 (Rupees four thousand six hundred and four only) for financing the training of ~~coir~~ their members and for demonstration activities in the manufacture of improved variety of coir goods as indicated below:

Training of Members:

Pay and Allowances of a trained inspector for one year for giving training to the members of the society.	Rs.804

Demonstration activities:

Buildings.	Rs.2,300
Purchase of improved machinery	Rs.1,000
Pay and allowances of a clerk for one year.	Rs. 500
Total:	Rs.4,604

The members of the Society are very anxious to undergo training in the manufacture of improved varieties of Coir goods for which there is a good demand in the local markets. The services of a trained demonstrator to the society free of cost for a period of one year is therefore absolutely necessary. The society requests that if ~~they are~~ it is

able to recoup to the extent of Rs.2,300/- for the amount ~~they have~~ it has spent already on the construction of 2 sheds, ~~for the society~~, ~~they~~ it will be able to run ~~their~~ its day-to-day administration successfully. The society has also proposed to convert coir yarn into coir ropes and nets for which there is local demand and good sale price. With a view to undertake the production of ropes the society wants a ~~subs~~ grant of Rs.1,000/- to enable it to purchase the required machinery. The services of a clerk free of cost for a period of one year is also essential for the society for maintaining the accounts. The financial position of the Society is far from satisfactory. The Registrar of Co-operative Societies and the P.E.O. Mangalore have strongly recommended the above proposals of the Society. In the above circumstances, I am directed to request you to kindly obtain the approval of the C.P.A. for the above scheme, which has to be met from the provision under 'other than loans' for Cottage Industries provided under Industries. I am also to point out for the information of the C.P.A. that this scheme has not been included in the general programme relating to Development of Cottage Industries which has been generally agreed to by them.

No.CPA/558/5/II-I/54(Bud)
GOVERNMENT OF INDIA
Community Projects Administration

New Delhi, 5th August, 1954.

To

The Director of Community
Projects & Ex-officio Addl.
Secretary to Government,
Agriculture Department,
Fort St.George,
MADRAS.

Subject:- Community Projects - South Kanara Project
Proposals under Rural Arts, Crafts and
Industries.

Sir,

Please refer to your letter No.3422-D-II/53-3 dated May 13,1954 on the above subject.The Coir Industry Scheme, forwarded with your above cited letter, has been generally approved. Funds for expenditure on the scheme will be allotted on receipt of complete proposals regarding supplementary programme to be taken up out of the unallotted funds in respect of the project. In this connection your attention is invited to para 28 (iv) of the list of "Main Recommendations and Conclusions of the Third Development Commissioners Conference" forwarded to you under this Administration's letter No.CPA/59/5/54 dated June 22,1954

Yours faithfully,

(S.S. SHIVAPURI)
Under Secretary

Pub.(R.D.P.II) Dept.

Issued as Memo No. 3422 Phb(CPII)/53-
dated 7.4.'53

From the P.E.O. Mangalore, Dis. 1097/538
From the P.E.O Mangalore, Dis. 593/53 & 26-

— x —

There is a coir Workers' Cooperativ
oduction and Sales Society at Ullal
Shere there is an abundance of raw
material for the improvement of c
industry. As the financial
position of the Society is not quite
satisfactory, The P.E.O Mangalore addres
D of I & C. in the first instance to depute
a trained coir instructor from h
Deptt to give instructions to the members
of the Society. But at the instance of the
D of I & C, the P.E.O. has addressed
for the Service of
trained Demonstrator for a period of a
year. The R.C.S. has recommended the
case. Subsequently the P.E.O. was asked to giv
all details of the proposal with financi
implications thereon. The P.E.O's deputa
memo 14 C.F. The P.E.O. has reported
that as the Society has got the machiner
and other sundry tools and implements, the
is in need for a grant in that

connection. and has Book ~~has~~ ~~report~~
but has requisitioned the services of a
trained Demonstrator for a period of one
year on Rs 45 + DA 22 per month, since
works to Rs 604/2 per annum. In his
letter cited 16 CF, the P.E. 0 has
applied for the grant of subsidies
for the following :-
1. Towards cost of building Rs 2,300
2. Purchase of Machinery Rs 1,000
3. Pay of clerk Rs 500
It is submitted that in the project estimate as
approved by C.I.A there is a provision for sum
of Rs 1.5 lakhs under Rural Ind Cmp
and Industries and 50 % of which is a
loanable item. Therefore ~~Rs~~ Rs 75000
is available to meet the expenditure of
the type above. But, while approving
the project estimate, the C.I.A has
requested that the details of industries
to be set up and the estimates involved
should be sent to it for prior ~~accepted~~
acceptance. ~~The~~ It is submitted that the Director
of Industries and Commerce has forwarded
Schemes as approved by (for trial in certain di
-stricts by Govt in R.W.S. for industrialisation
of the final areas in Cr prepared by Sri M. Viswesara
Coir industry is one of the S.S. cottage
industries and Small scale Industries
recommended by the ~~to~~ D.P.O for
development in Project Area. For
orders whether the proposal to Sanction
a trained demonstrator and grant
of Subsidy for machinery and ~~bu~~
building for the above coir Workers'
Cooperative Production and Sale Society
~~pending finalisation of the general~~

may be considered, pending finalisation of the general Scheme on "Cottage Industries" or this may lie over till then. If it ordered that this proposal shd be considered on its merits, the case ~~may be recommended for the grant of subsidies~~, may be referred to RCS for his remarks ~~& orders~~ regarding the grant of subsidies to the Soc recommended by the Dy. Registrar Rayl for orders.

RS 10653

7/10.6.53.

This may be considered on merits. The RCS may be asked to offer his comments urgently

11/6

A draft memo to the R.C.S submd for approval.

RS 11.6.53. 12/6

Madras Memo No. 3422 6(CPI)/53-2
Dated 1.3.6.53
From the RCS Rc. 105522/53 V.2 dt 2.10-53

—x—

The proposal in this file is to ~~stud~~ grant a subsidy as detailed below for Coir workers' cooperative Society at Ullal

(1) Subsidy to meet the cost of transport Rs 500/-
(2) Towards cost of building Rs 2,000/-
(3) Purchase of machinery Rs 1,000/-
(4) Pay of clerk Rs 500/-

The case was referred to RCS for comments

of the months. The Recommendations of the R.C.S are at pp 24-25/C. The cost of the scheme (Non-Recurring) will be as follows:-

(1) Cost of Training Cum Demonstrators Pay Tof instructors : Rs 45+22 pm x 12 x 2
(2) Subsidy towards cost of building Rs 2,300
(3) Subsidy of Rs 1000/- to enable the Society to purchase weaving machines
(4) Pay of clerk for 2 years Rs 30+19 pm x 12 x

The RCS for the reasons stated in his letter has approved the above proposal. In the overall programme no provision has been made for the above proposal. (cc) accepting Fisheries no proposal has been mentioned therein This proposal has also not been included in the cottage Industries programme sent to C.P.A. for approval. The net cost of the scheme is Rs 6100/- out of which Recurring is Rs Non Recurring is Rs or orders. Whether the expn may be sanctioned straight away now or the C.P.A may be addressed in the matter. It may be mentioned in this connection that the C.P.A while approving the budget estimates have desired to know the details of cottage Industries programme for their approval).

13/2/54 The remarks of D.I.C. and Finance may be invited.

13/2/54 There is no need to consult Fin or Dte at this stage.

What is required that the Society should be financed now to enable to go on with its work.

Subsidy towards the building is not

and improvements are not required. Though the Dy. Reg. requires only 50% of the cost for the machinery the Registrar wants first to give the subsidy for full cost viz Rs 1000. The Society is at present working well. If we decide to give a subsidy for the building we may give Rs 1000/- for the machinery. This is divisible into Rs 2500/- for the building. We may also pay Rs 500/- for a clerk for a year. As regards the instructions we may pay for a year. By the time of 12 months is over the Society may have turned the corner. If the Society is not able to get funds for its working expenses we may give a loan of Rs 1500/- provided it takes unlimited liability. This may be ascertained.

The P.E.O. may be asked to enquire into the above & submit a report. We may consult C.P.A. for its concurrence. Thereafter the P.E.O. may include in his Supplementary programme of bldg & cottage industries to be financed by him.
